

Sink Phantom Base

Recommended for 20 mm thickness

Kitchen Sinks

Code: 5555 240

DETAILS

Material AISI 304 stainless steel

Texture Foster brushed

Dimensions 546 x 446 mm

Number of bowls 1 bowl

Bowl dimension 506 x 406 mm

Built-in hole [View technical data sheet](#)

Standard fittings Drain, Foster overflow and universal corrugated pipe (for installing different overflows), Boxed packing

Waste fitting 3,5" drain

Notes: For 20 mm thick sheets

FEATURES

PHANTOM BASE - 20 mm

The Phantom BASE sink's bottoms are specifically engineered to be coupled with sinks made out of slabs. The perimetric trough makes for a simple and perfect installation. This version of Phantom BASE is meant for slabs of 20mm thickness.

PHANTOM BASE WITHOUT WELDING

The steel bottom Phantom BASE solves the problem of water draining of slab sinks, because the slope built into the moulded bottom ensures perfect draining. The radius and sloped profile of Phantom BASE guarantee great practicality and hygiene in everyday cleaning.

High thickness

1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.

Perimetral overflow

The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.
