

Sink Phantom Base Gun Metal

Recommended for 20 mm thickness

Kitchen Sinks

Code: 5557 246

DETAILS

Material	AISI 304 stainless steel
Texture	Foster brushed
Finish	PVD
Coloring	Gun Metal
Dimensions	756 x 446 mm
Number of bowls	1 bowl
Bowl dimension	716 x 406 mm
Built-in hole	View technical data sheet
Standard fittings	Drain, Foster overflow and universal corrugated pipe (for installing different overflows), Boxed packing

Waste fitting

3,5" drain

Notes:

For 20 mm thick sheets

FEATURES

Gun Metal

The Gun Metal finish is obtained by treating steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement of the mechanical properties of the steel which is more resistant to impact and scratches.

PHANTOM BASE - 20 mm

The Phantom BASE sink's bottoms are specifically engineered to be coupled with sinks made out of slabs. The perimetric trough makes for a simple and perfect installation. This version of Phantom BASE is meant for slabs of 20mm thickness.

PHANTOM BASE WITHOUT WELDING

The steel bottom Phantom BASE solves the problem of water draining of slab sinks, because the slope built into the moulded bottom ensures perfect draining. The radius and sloped profile of Phantom BASE guarantee great practicality and hygiene in everyday cleaning.

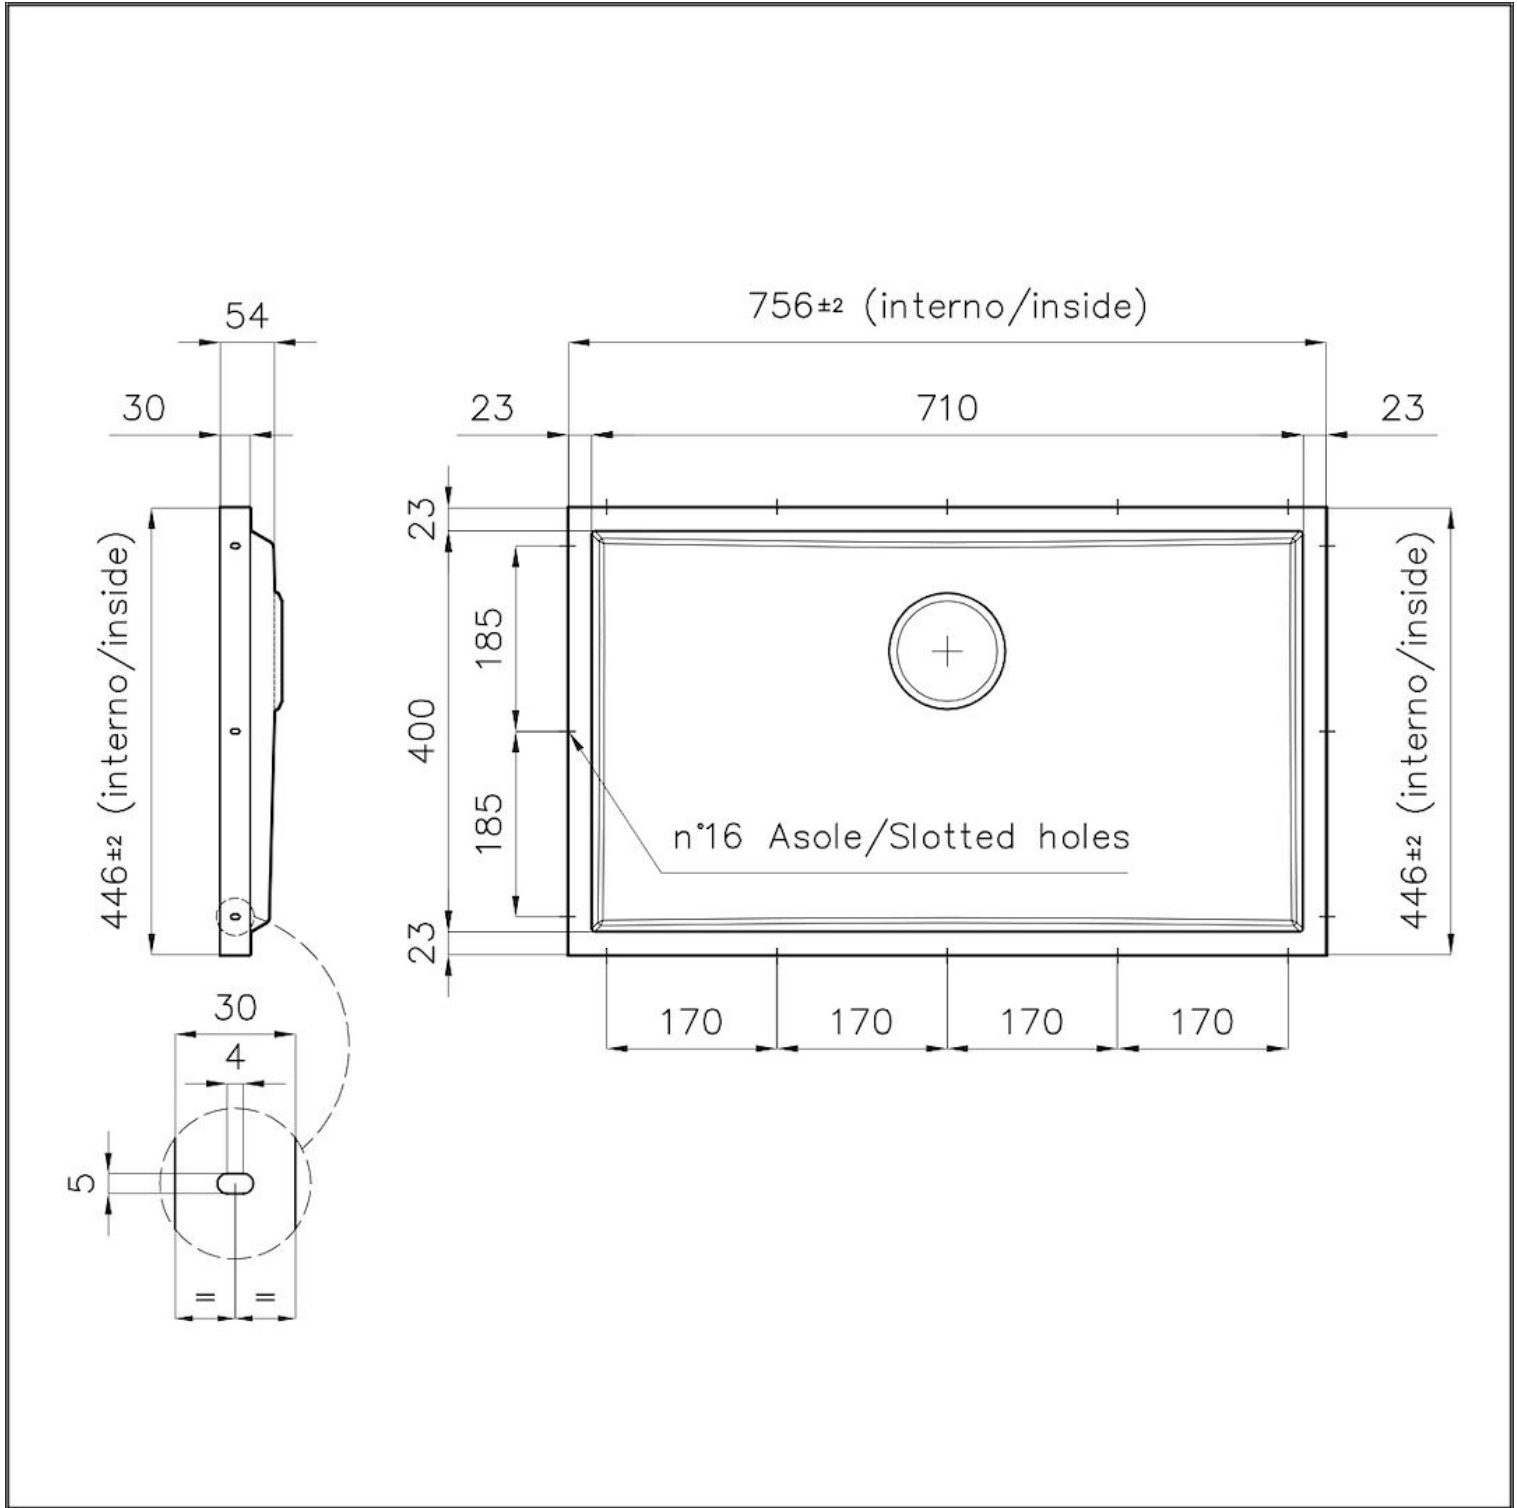

High thickness

1mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.

Perimetral overflow

The overflow is always a security on the Foster sinks that prevents the overflow of water in case of oversights. The perimeter drain solution improves aesthetics thanks to its square and essential shape.
